

## Captured

          G                          D                          Em  
I don't want to see you captured by the world  
          C                  D                          G          D  
when its face can seem so beautiful  
          G                          D  
don't let them tell you it's OK  
          Em                          C  
to keep a little for your own  
          G                          C          D          G          C          D  
it's a trap that some will never overcome

G  D                  C                  G  
Oh ho you've been set free  
          D                  C          G          D  
with blood that cries mercy  
G  D          C                  G  
Oh ho at such great cost  
          D                  C          G          D  
the Father's very Son
